EXPERIENCE

Banco General | Financial Services

Dec 2021 - Jul 2025

Financial Data Analyst, Business Operations

Panama City, PA

- I specialized in ensuring that all critical information was processed with total precision under strict standards, always guaranteeing compliance with internal policies and industry regulations.
- I translated complex operational requirements into clear and actionable workflows, efficiently managing the necessary documentation to keep internal processes running smoothly.
- I was responsible for developing and auditing Standard Operating Procedures (SOPs), which allowed me to maintain high-quality standards while balancing multiple tasks and priorities simultaneously.
- I collaborated daily with different departments to resolve issues quickly, ensuring that all reports were accurate while operating multiple systems at the same time—a skill I am eager to apply to customs documentation management.
- I am highly experienced in managing high-volume, time-sensitive work, where I consistently met tight deadlines while maintaining attention to detail and reliable communication with all involved stakeholders.

BAC Credomatic | Financial Group

Financial Data Analyst, Business Operations

Mar 2019 - Dec 2021

Panama City, PA

- Operational performance was consistently monitored and analyzed through rigorous quality and efficiency metrics, which helped identify business challenges, resolve process bottlenecks, and deliver data-driven solutions that enhanced overall scalability.
- Performance tracking and productivity metrics were successfully automated using integrated data visualization dashboards and reporting tools, ensuring high data quality while providing clear insights for strategic decision-making.
- Risk and dependency mapping were conducted across complex operational flows, alongside the development of robust monitoring plans and close collaboration with IT, Finance, and Operations partners to guarantee absolute data consistency.

CEJIDSA | Construction Contracting
Process Analyst, Business Operations

Nov 2017 - Mar 2019
Panama City, PA

- Close collaboration with departmental leads enabled the auditing of high-impact operational areas, translating complex workflow challenges into functional process specifications and structured requirements to ensure documentation compliance and data optimization.
- Comprehensive visual process maps and workflow diagrams were designed to identify system gaps, evaluate operational feasibility, and mitigate risks, effectively streamlining the documentation lifecycle and overall business processes.
- Critical cross-functional dependencies and operational risks were identified through structured problem-solving frameworks, fostering consensus among partners and support teams to align daily execution with organizational policies and efficiency goals.

COTRANS Transportation Consulting
Data Quality Collections Analyst

Mar 2017 - Sep 2017
Panama City, PA

- High-volume data validation and integrity checks were executed for complex operational datasets, utilizing a quantitative approach to ensure maximum data quality and absolute accuracy for all documentation and tracking initiatives.
- Automated data reconciliation tools and templates were developed to streamline data ingestion and performance reporting workflows, proactively solving business challenges and boosting team productivity.
- Critical data inconsistencies were identified through rigorous monitoring, with data-driven solutions proposed to maintain the absolute reliability of operational metrics and deliverables required for review by management.

EDUCATION

Aden Business School & Euncet Business School | Panama City, Panama / Barcelona, Spain
MBA in Project Management (Dual Degree Program) | 2023 – 2025

- Developed advanced competencies in corporate strategy, agile project lifecycles, and cross-functional leadership within international business frameworks.
- Dual Degree program in partnership with Euncet Business School (Polytechnic University of Catalonia).

The George Washington University | Washington, D.C.
Specialization in Project Management | 2023 – 2024
